constituents: L beg respectfully to call your lordship's attention to the second resolution passed at the above named meeting, and at the same time to express the profound regret felt not only in this colony but by the foreign communities in Chine that Her Majesty's Government should have sanctioned the ratification of this Telegraph Convention after the assurance given to this Chamber in 1890 that such Convention would not be retified without previous reference to those interested. The rates obarged prior to the 1st August had emplod the Telegraph Companies to pay handsome dividently and to amain enormous reserve fonds; any change in the tariff therefore should rather have taken the opposite direction with a view to encourage the traffic. With the addition to the rates now imposed business will be considerably handicapped and probably greatly restricted.
The hope of this Chamber now lies in the

establishment of direct telegraphic communication to America, by means of a cable across tho Pacific. () Honolula, to Vancouver or to San Francisco. They are strongly in invour of a general reduction of the Tariff, and they fear that ex-parts demands for special concession may only retard that desirable issue. They would there-

At the same time they feel bound to point out that the expedient you anggested of Govern-ment being asked to guarantee in whole or part the Telegraph Companies against any loss

of revenue consequent on such reduction is a regards this colony quite impracticable -- I am. Xo. A. J. GUNN.

My Committee desires me to assure you that they are quite ready to act in harmony with your Chember and the China Association with regard to the suggested increase in the import duties. From the first this Chamber has taken up the position that no concession should be made to China unless the Government of that country is prepared to abolish lekin and to make the one duty imposed on landing frank the goods throughout the Empire. This is the view, I understand, taken both by your Chamber and the China Association, and though apparently not likely to he favourably regarded by the Chinese Government, it is the only basis on which negotiations for a revision of the tariff should be antertained? -I am, dear mr, yours faithfully,
